Did you know?

- Home fires killed 2,470 people in 2012
- Home fire caused 9.8 billion dollars in property damage in 2012
- Smoking material fires can affect not only the smoker, but others living in or next to the home at the time of the fire.
- Almost 75% of the fires caused by smoking materials are the result of a cigarette being abandoned or carelessly disposed. In other words, someone was not thinking, not paying attention and just not being careful.
- 1 out of 4 people who died in smoking-material fires was not the smoker whose cigarette started the fire.

Put your plan into action.....

Fires caused by cigarettes and other smoking materials are preventable. You can make a difference!
